

Why is it so important to re-elect Sen Warnock?

1. Sen Warnock is a fantastic asset to the Senate!
 - a. Strong advocate for healthcare affordable for all
 - b. Education is the ladder of opportunity for all
 - c. Build an economy that works for all
 - d. Ensure that every vote is counted
2. The Senate race in 2024 is going to be a much harder election for Dems - we need all the Dem Senators we can get now!

Letters

The letters we write are not directly "Get out the vote" they present an important issue like healthcare as a way to begin engagement with infrequent working class voters

They are only one piece of a multi phased voter engagement effort by Working America

Working America does a lot of research on their campaigns and concludes that every 50 letters sent to their members yields a vote for Dems that probably counts double -

because it would likely have been a vote for Republicans.

Letter to GA with Vote Forward – Send ASAP, not latter than Tuesday, 11/29

<https://votefwd.org/campaigns>

These letters ask you to write about why you personally vote and how important that voting is for democracy.

Phone Banking

Fair Fight (Stacy Abrams group) <https://www.mobilize.us/fairfight/event/543401/>
Call Georgia voters to make sure they make a plan to vote and follow through with that plan. Directly contacting voters is the best way to ensure they have the information needed for this election.

Donations

We can also step up and support the work of organizers in GA with donations. [Georgia Alliance for Progress](#) supports a wide array of organizations who will be trusted messengers in GA. (recommended by our friends at EBAA)
